Assigned to: _____

Description of problem _____

Petitioner agrees to assume all costs (including, but not limited to, labor, materials, and fuel) associated with the excavation, maintenance, repair, and/or replacement of any privately-owned drainage tile performed as a result of this petition. All costs associated with the excavation, maintenance, repair, and/or replacement of any county-owned drainage tile will be apportioned and billed to the corresponding drainage district.

Petitioner acknowledges that it can be difficult to ascertain the scope of a drainage problem and/or the ownership of a particular drainage tile without excavating the tile. Petitioner agrees to assume all costs associated with excavation of a privately-owned drainage tile performed as a result of this petition, even if Petitioner assumed the work would be performed on a county-owned drainage tile at the time this petition was submitted.
